## GUESTS ON THE SHOW:

### BIZZ BIGSBY

One of our 'Sam's Pick Of The Week' artists Bizz Bigsby joined Sam for an interview via Zoom! Bizz grew up in North Nashville, raised by his grandmother with his father - a highly successful musician who was also close friends with Jimi Hendrix and Little Richard making music a huge part of his life from the start. Unfortunatley, at the very young age of 4, Bizz witnessed his mother getting shot leading to her passing, which were followed by struggles with addiction, battling and surviving cancer and several near death experiances. With this in mind, music became Bizz's 'guiding light' and the struggles hes faced formed his unique style oif music that we all know and love.

Bizz blends the soul and R&B legacy of North Nashville's Jefferson Street with the story-telling traditions of country and blues. Creating a new sound that can best be described as Urban Americana, drawing listeners in with it's raw emotion and authenticity.

Today, after being clean of drugs and alcohol for 12 years, Bizz is an accomplished artist, entertainer, and songwriter, whose music is influenced by everyone from Sam Cooke to George Jones to James Taylor. He has sold out 40 gigs in Nashville across 2025!

## BERNIE THE BIGFOOT

This month, I 'Bernie The Bigfoot' got a whole episode to myself!

Sit back and have a laugh at all the things i've done...

I think i scared Sam and most of the artists but it was nice to get my pictures signed by all the artists, my favourite ones in my collection are Marcy Grace, KC Johns, Ella Spencer and Reverend Peyton

I also got a CD signed by Orit Shimoni,

I gave flowers to Gareth Nugent

(I dont think Ellinor Springstrike was very pleased)  
But I spend most of my time making tea for the artists, Sam and our team so I get to get quality time with the artists off camera too.

Now, I've said too much about me, back to writing about the other artists!

Now here is a great song especially the sound of a steel guitar bringing backing that classic country music feeling will just take your breath away. Duncan did a fantastic job at creating the perfect song capturing the classic country vibe but also with his own identity!

## JOHN TAYLOR - TIME TO MAKE A CHANGE

John Taylor's 'Time To Make A Change' simply just reflects his roots and love for the folk, blues and rock genres in music. The song features themes of personal reflection, breaking cycles and the need for of a change.

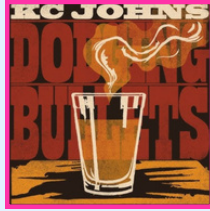

## SAMMY SADLER - I CAN'T GET CLOSE ENOUGH

In this song, Sammy continues to honor the legacy of '80s and '90s country music in his recreation of the song 'I Can't Get Close Enough'. This just pays tribute to that timeless sound while featuring a special appearance from Sonny LeMaire, J.P. Pennington, and Les Taylor of Exile, who appear on the track courtesy of Clear Water Records.

## KC JOHNS - DODGING BULLETS

Starting from stories shared between KC and her bandmates, 'Dodging Bullets' was born from four war stories combined with KC experience being a woman paving their own way in life. The infectious crazy guitar riff makes you want to sit and listen.
